Wind Tech Starter Checklist

From Sergejs, an active wind turbine technician based in Latvia

1. Training and certificates

- ☐ Created a free WINDA profile and saved my WINDA ID (winda.globalwindsafety.org)
- ☐ Booked GWO BST at a GWO-certified centre: First Aid, Manual Handling, Fire Awareness, Working at Heights (+ Sea Survival for offshore)
- ☐ Considered GWO BTT (mechanical, electrical, hydraulic)
- ☐ Noted expiry dates: GWO certificates are valid for 2 years
- ☐ Checked whether I need a medical certificate for the course or employer

2. Documents

- ☐ Valid passport or EU ID
- ☐ Driving licence (category B helps a lot)
- ☐ Trade or electrical qualifications, translated into English
- ☐ EU health insurance card (EHIC)
- ☐ For posted work in another EU country: ask the employer about the A1 certificate

3. Gear (check what the employer provides)

- ☐ Safety boots (S3)
- ☐ Work clothes for cold and wet weather
- ☐ Head torch, gloves
- ☐ Never use your own fall-protection kit unless the employer approves it

4. CV and job search

- ☐ 1–2 page PDF CV with certificates and WINDA ID at the top
- ☐ Hands-on technical experience listed with concrete tasks
- ☐ Languages and readiness to travel or work rotations stated
- ☐ Applied to manufacturers, service companies and staffing agencies
- ☐ Set up LinkedIn with "Wind Turbine Technician | GWO BST"

5. Before you sign

- ☐ Know if it's employment or a B2B/self-employed contract, and who pays tax and social insurance
- ☐ Hourly rate, overtime, travel time, accommodation and travel allowances written in the contract
- ☐ Rotation schedule and notice period are clear

Independent guide. Not a GWO provider and not affiliated with GWO, WINDA or any employer. No job guarantee. Check requirements with your training centre and employer.
